

MARTHASM & MARY Kids

CHILD CARE & LEARNING CENTER

October 6, 2022

The renovation of the first floor in the Martha & Mary Health Services building in Poulsbo is moving along nicely. This new area will be home to the children at the Child Care Center and Children's Learning Center in Poulsbo and offers enough additional space for an extra 75 children!

Gathering the children from Kitsap County under the same roof as our elders is a blessing for all of our generations. The seniors will enjoy the energy and youthful spirit of the children and the children will benefit from planned intergenerational visits and fun activities with the seniors.

This is fantastic venture for Poulsbo as child care services are desperately needed in our community. It is even a greater benefit for Martha & Mary employees with children in child care who work in the same building.

We hope to open the Martha & Mary Kids **CCLC** spring 2023.
